* Juvenile resistance to YR

Source: AHDB 5yr report 2018-22. Notes [] - limited data

RGT Bairstow is the joint highest yielding soft wheat with full UK recommendation. Delivering excellent results in all regions, it also has one of the highest second wheat yield of any recommended soft wheat. RGT Bairstow has a very flexible sowing window from end of september to the end of february performing particularly well in the late drilled slot. The variety is rated good for distilling.

RGT Bairstow has a strong disease resistance package, with an impressive rating for Septoria tritici, solid yellow rust (including juvenile resistance) and mildew scores. It also has OWBM resistance.
