

# RGT ORGAMAX

60 tonnes organic matter/hectare

RGT ORGAMAX is specially formulated for increasing organic matter. A high level of organic matter improves the soil fertility and has a good effect on crop development of the subsequent crop.

- High biomass production with intensive root system
- Frost susceptible: easy to incorporate
- Low sowing rate/hectare for maximum effect

**Sowing Date :**  
July -August

**Sowing Rate :**  
12-15 kg/ha
