DISEASE RATINGS

	LLS (%)	Stem canker (disease index)	TuYV
RGT Blackmoon	11.7	9.0	R**
DK Expansion	9.7	13.9	-
Aspire	7.3	6.5	R
Aurelia	7.3	13.9	R
Ambassador	11.0	-	R

Blackmoon has very good seed yield, regarding oil yield it is very similar to Aurelia.

When it comes to growth habit Blackmoon has no equal. Its speed of development and autumn vigour can only be described as impressive, this makes Blackmoon the n°1 choice when sowing in adverse conditions such as late sowing, poor seedbed...

This is complemented by a sound agronomic package with regards to straw characteristics and disease resistance.
